Bolyai köz 4. 1/1

Zoltán Kovács was working by Europrint Ltd. (former Vilati Circuits Ltd.) from the start from year 1993 till 1996 as a technical supervisor. He led and controlled the front-end preparation team, developed a control and repair system for the form of our customers incoming documentation. The system contains the milestones, where the customers have to be informed, what kind of decision can be made from the manufacturer and where is unconditional need of the customer decision. Ha also made reports about team activity to management.
He led the installation of the computer networks and managed it. He took care for the user wishes, for continuous development of the networks and the endpoints. He managed our servers and CAM stations.
His knowledge was shared to the preparation team and responsible lead with the technical team. One of his responsibility was also to take care for the customer relationship from the technical point of view. He coordinated the technical information flow between the Belgian merchants and the Hungarian production.

Eger, 14.09.2004.

Regards,

Maria Balogh
Managing director
